Projects

- **Pick Soccer (2018)** – MERN stack web app that allows users to create profiles, post comments, and interact with fellow soccer players to arrange pick up soccer games.
- **Let's Get Physical (2018)** – Fully customizable MERN stack workout app that allows the user to input the amount of time they would like to work out, body parts the user would like to work out and the equipment the user has available. Workouts are provided that take into account the information the user entered.
